We create distinction and stand-out appeal by meticulously crafting for perfection in every skincare and wellness business obligations.

## OUR MOTTO

“What We Do Well,  
We Do It With **PRIDE!**”

**TCT NUTRACEUTICALS**, born in Malaysia, 100% privately own by Malaysians and established in 2018. We are the Top 3 cosmetic GMP manufacturer in Malaysia focusing in OEM and ODM - a strong reason to be your lead partner for innovative development, manufacturing of branded and prestige private label beauty products via our own in-house R&D laboratory. This enables us to offer our customers with effective bespoke ranges of skincare.

All our ingredients are sourced from reputable suppliers worldwide. The broad and holistic approach in developing and manufacturing high-performance skincare and beauty products, promoting innovation, maximize efficiency, competitiveness, and new market segmentation is our signature commitment to customers'

satisfaction. Our forward-thinking team catapult us into the future in keeping abreast with the latest technology and preference change according to market trends.

Our Malaysian-based Headquarter is located in the suburb of Puchong, Selangor with a built-up area of 25,000sf. Currently, we are equipped with 7 production lines manned by a total of 50-100 manpower to support the daily production which generates a turnover of RM10 Million per annum.

We combined industry insights with cutting-edge research and operational expertise to provide impeccable service and regulatory guidance to our customers in the specialty of OEM and ODM to work closely with your dedicated marketing team.

Our experience through existing clienteles from Vietnam, Indonesia, Singapore, China, Hong Kong, Japan, Australia, India, South Africa, Russia, UK and USA enables us to channel the support and guidance to customers seeking export opportunities in the near distance.

To top all the above, we have in-house product stability tests from internal & external laboratory such as SGS, MYCO2, MPOB, and EUROFINS. Others in the pipeline include the emphasis in products' safety to raise the confidence bar in end-users.

**WE ARE YOUR 1-STOP HIGHWAY TO SUCCESS!**

## PRODUCT ANALYSIS

# OUR BUSINESS MODELS

## 01 RESEARCH

Whether it's an idea, concept or existing formula, our R&D team will align formulations to suit your desires, objectives and expectations. From packaging concepts to innovative trends, we offer full service, driving you from the concept stage to marketable products ready for the shelves.

## 03 FORMULATE

With over 10 years in formulating beauty care products, our experience is our virtue. However, we understand the nature of the ever-changing industry and will assist you to keep abreast of upcoming trends in formulated products, ingredients and raw materials. Our chemists & Quality Control (QC) make our formulas undergo proven accelerated stability testing to ensure they fit with your product ideas and brand values.

## 05 SERVICES

Our services have been developed, and perfected as the foundational infrastructure for our customers' needs. This allows our customers to reach target market faster.

## 02 TECHNOLOGY

Experience the power of science behind formulas. We deploy our own innovative technology when creating unique formulas for each client. Developed from 10 years of research and studies, this synergistic approach which already began at formulating level – let you use our technology as your concept to have an edge over other competitors when getting your products out to the market.

## 04 PACKAGE

Great products deserve great packaging. With filling equipment for a wide variety of bottles, jars, sachets and tubes, we offer a range of packaging and manufacturing options to tailor any project needs. With the latest high-speed machines and quality packing suppliers, we have the most competitive quotes in the market.

### SHEET MASK

**25,000** pcs (per day)

- Produce with a sustainable fully automated sheet mask production chain.
- Fulfil market demand with low cost, high volume manufacture.
- Variety mask paper & customized mask shape design is available.

### AEROSOL

**15,000** pcs (per day)

- Foresee it will be a future trend in the beauty market; Aerosol spray use in skincare products (selling point).
- Innovative and new spray technology: mousse type, spray mist type; non-refillable.

### SOAP BAR

**30,000** pcs (per day)

- Create with cold bleed process soap machine technology, able to keep & seal in the active ingredient functionality into the product itself.
- pH balanced, not easily broken, fully automatic.
- Non cooked, thus shorter time in processing.

### THERMOFORMING

**30,000** pcs (per day)

- Variety of in-trend packaging.
- Filling in via a fully automated machine enables high volume & hygienic production.

# OUR PRODUCTS

## SKIN CARE

In order to thrive and succeed in the skin care industry, you need advanced, professional formulations and packaging. Concept Laboratories offers high quality products so you can rise above the crowd. We specialize in SOPHISTICATED, PROBLEM-SOLVING SKIN CARE TREATMENTS.

You will find a library of liquids, creams, gels, scrubs, ointments and suspensions to meet your requirements.

## BODY & PERSONAL CARE

We develop PERSONAL CARE SOLUTIONS to help retailers and customers who without extensive capabilities and expertise in developing regulated and non-regulated products, grow their private brands, from personal hygiene to luxury cosmetics solely used for beautification.

## SHEET MASKS

You are collaborating with Malaysia's largest contract manufacturer for skin care sheet masks. We produce 30,000 facial sheet masks loosely in a daily capacity.

Only the highest quality ingredients, including ORGANIC, NATURAL, VEGAN, AND CRUELTY-FREE formulas are used. Different serums, formulas, desired effects or even price points can dictate which type of face mask is the ideal delivery system. We can help you wade through the variety of shapes, materials and technologies and even work with formulators and fillers to find the right solution and develop your product successfully.

---

## HAIR CARE

A VAST RANGE of hair care products, ranging from shampoos, conditioners, colour stay formulations, hair loss treatments, deep conditioning repair, leave in treatments, fizz away oils, hair fixing mists and hair waxes.

---

## SOAP BAR

The ultimate NON-DRYING CLEANSING BAR for every skin type and pH levels. This gentle formula produces a nice lather without leaving a slimy residue on the skin.

---

## SPA PRODUCTS

Through our rigorous process of selecting suppliers and unwavering commitment to stringent quality testing, we take pride with assurance that every product sourced is 100% PURE & AUTHENTIC.

## BABY CARE

Pregnant or breast-feeding moms & babies' skins are very sensitive & delicate. Hence, we are mindful with the selection of skin care products. Not only we purchase RAW MATERIAL from major global ingredient plants, but also particularly CAREFUL IN CHOOSING MATERIAL which may cause allergy.

## COLOUR COSMETIC

We have the experience, expertise, and quality processes to deliver the Color Cosmetics product you need, tailored to your exact specifications.

## SANTIZER & DISINFECTANT / OTC

We offer a wide range of clinically proven formulations, made with varieties of active ingredients such as Denatured Ethyl Alcohol (DEA), Isopropyl Alcohol (IPA), Silver Ion (Ag+), Sodium hypochlorite (NaOCl), BKC.

### PRODUCT DESCRIPTION:

Protect your family from illness by preventing the spread of harmful bacteria & viruses. It has been tested to kill common bacteria with moisturizers to minimize skin dryness & irritation. This effective hygienic product provides long hours protection to leave yourself cleaned, safe, & disinfected.

## AEROSOL / OTC

We provide one-stop OEM / ODM service for aerosol related products with qualified GMP STANDARDS. To-date, we are the only aerosol manufacturer in Malaysia which produce skincare.

### PROPELLANT GAS:

- LPG, Oxygen, Carbon Dioxide, DME (Dimethyl Ether)
- Nitrogen (inert, high stability, non-inflammable)

### WHAT'S GOOD ABOUT AEROSOL PRODUCTS?

- Recyclable & environment friendly
- Simple with no complicated pieces
- Hygienic & keep fresh
- Reduce waste
- Sealed & spill proof

## THERMOFORMING

Thermoform packaging is a high-performance manufacturing process whereby a half-finished plastic sheet is heated to create a usable product. It is popular and widely used in the beauty industry and skincare market for liquid form products, especially single dosage items. Not just easy to use, but it also adds on a touch of elegance with a premium feel. Thermoform packaging is made of a strong material which is HIGHLY RESISTANCE that doesn't break easily.

### REINFORCING YOUR BRAND IMAGE:

Thermoforming packaging is ideal for personalised labels with the name of the product, brand & any additional message that you want to add. There's no doubt that distributing cosmetics in thermoformed jars will create a STRONGER BRAND IMAGE TO CAPTURE GREATER MARKET PRESENCE.
