## TCT NUTRACEUTICALS

TCT Nutraceuticals is recognized as one of Malaysia's leading **GMP-certified cosmetic manufacturers specializing in customized formulations**. Established in 2018 and fully privately owned by Malaysians, we serve as a trusted manufacturing partner for the innovative development and production of **premium branded and private-label beauty products**. Our capabilities are supported by a fully equipped **in-house R&D laboratory** and stringent GMP manufacturing standards, ensuring product quality, safety, and consistency. All ingredients used in our formulations are sourced from **reputable global suppliers**, guaranteeing high standards of performance and reliability.

Headquartered in **Puchong, Selangor, Malaysia**, our facility spans approximately **70,000 square feet** and houses **15 production lines**, supported by a workforce of **120–150 skilled personnel**. This operational capacity enables us to maintain consistent manufacturing output while achieving an **annual turnover of approximately RM20 million**.

We combine **industry insights, advanced research capabilities, and operational expertise** to deliver seamless **OEM and ODM solutions**. Guided by continuous research and market intelligence, our R&D division actively develops formulations aligned with **emerging global beauty trends and consumer demands**. Clients can leverage our extensive portfolio of **proven formulations** to launch their own brands

or partner with our R&D team to develop **fully customized innovations** that respond to rapidly evolving market trends.

Our holistic and integrated approach to product development emphasizes **innovation, operational efficiency, market competitiveness, and the creation of new product segments**. To date, TCT Nutraceuticals has successfully developed **over 10,000 product formulations for more than 400 clients across 40 countries**, positioning us as a reliable partner for brands seeking **high-quality, scalable, and market-ready beauty solutions**.

## TCT NUTRIFOOD

Beauty and wellness require a holistic approach that integrates both **internal nourishment and external care**. At TCT Nutrifood, we specialize in developing a comprehensive portfolio of advanced formulations designed to support overall wellbeing and beauty enhancement. Our product development capabilities include solutions for **general health support, detoxification, nutritional supplementation, women's beauty, weight management, and sleep optimization**. To meet diverse market demands and brand positioning strategies, we manufacture in multiple delivery formats, including **powders, liquids, and jelly-based supplements**.

With flexible formulation capabilities and scalable production infrastructure, TCT Nutrifood empowers brands to create **high-quality, differentiated wellness products tailored to their target markets**.

## TCT AEROSOL

TCT Aerosol is a **one-stop OEM/ODM manufacturing partner** specializing in GMP-compliant aerosol product production. We provide **customized formulation and manufacturing solutions** across multiple industries, including **cosmetics, skincare, body care, hair care, and food applications**. Our advanced capabilities incorporate both **conventional aerosol technology and Bag-On-Valve (BOV) systems**, enabling us to deliver innovative, safe, and high-performance aerosol products tailored to the diverse requirements of our clients.

## TCT USAHA NIAGA

TCT Usaha Niaga enables entrepreneurs and businesses to **establish and scale their own Halal-certified skincare and cosmetic brands** with confidence. With **over a decade of experience in beauty and skincare formulation**, our team provides end-to-end development support, from concept creation to final production. Our experienced chemists work closely with clients to design **customized formulations aligned with brand positioning, market trends, and regulatory standards**.

To ensure product performance and reliability, all formulations undergo **rigorous quality control protocols, including accelerated stability testing**, conducted by our dedicated Quality Control (QC) team. This ensures that every product meets strict quality benchmarks while delivering results that reflect the brand's vision and values.

## TCT PRINTPACK

As an integral part of the TCT Group ecosystem, TCT Printpack delivers **innovative packaging solutions tailored specifically for the beauty and cosmetics industry**. We offer an extensive range of **high-quality cosmetic bottles and packaging materials** designed to align with evolving global market trends and brand aesthetics. Our focus is to support brands with packaging solutions that enhance product presentation, protect product integrity, and strengthen overall market competitiveness.

With a commitment to **innovation, competitive pricing, reliable delivery timelines, and exceptional customer service**, TCT Printpack provides a comprehensive selection of modern packaging designs that meet the dynamic preferences of today's consumers.

**“What We Do Well,  
We Do It With PRIDE!”**

**OUR MOTTO**

## WHY CHOOSE TCT AS YOUR BRAND'S STRATEGIC PARTNER

### 01 CUSTOM FORMULATION – Not Off-The-Shelf Solutions

At TCT, we believe every brand deserves a formulation that reflects its unique identity. Our team co-develops customized formulations tailored to your brand vision—ranging from **minimalist clean beauty** to **advanced cosmeceuticals**, and from **botanical-based concepts** to **K-beauty** and **J-beauty** inspired innovations.

Our experienced R&D team delivers **market-ready solutions** aligned with your brand positioning and consumer expectations, helping you stand out in a highly competitive market.

### 02 CERTIFIED MANUFACTURING with Stringent Quality Standards

All production is conducted in facilities certified under internationally recognized standards:

 GMP MALAYSIA 4192/26	 JAKIM.700-2/3/8 085-01/2020	 SIRIM ISO 22716:2007 GMPC00108	 ISO 9001:2015 MY 20/1811030439	 ISO 9001:2015 MY20/1811030434	 COSMETIC FACILITY 3017270745	 FOOD & DRUG FACILITY 3017270745
GMP Malaysia	Halal Certification	ISO 22716 – Cosmetic Good Manufacturing Practice (GMP)	ISO 9001:2015 – Quality Management System		FDA Compliance	

These certifications reflect our commitment to maintaining rigorous quality assurance at every stage of manufacturing, ensuring product safety, consistency, and full regulatory compliance.

## 03 OVER 20 YEARS OF INDUSTRY EXPERTISE Driving Future-Focused Growth

Our company is led by a founder with **OVER 20 YEARS OF INDUSTRY EXPERIENCE**, combining deep scientific knowledge with operational excellence and brand-building expertise.

From collaborating with **international luxury brands** to scaling **successful private-label businesses**, we understand the commercial and technical dynamics required to develop **products that deliver both performance and market success**.

## 04 FAST & FLEXIBLE INNOVATION Through Our Ingredient Library

Our proprietary **ingredient database of over 1000 ingredients** enable us to rapidly develop innovative product concepts. This capability allows us to respond quickly to **emerging trends, seasonal demands, and regional consumer preferences**, giving your brand the agility to **lead market trends rather than follow them**.

## 05 MALAYSIA'S FIRST AEROSOL SKINCARE MANUFACTURER

TCT is proud to be among the **first manufacturers in Malaysia to introduce aerosol skincare technology**.

This advanced delivery system enhances **product stability, formulation integrity, and user experience**, opening new possibilities for innovative skincare formats.

## 06 SAFE, HIGH-QUALITY, AND GLOBALLY COMPLIANT INGREDIENTS

We prioritize the use of **premium, certified raw materials sourced from trusted global suppliers**. All formulations are developed in compliance with **ASEAN Cosmetic Directive, EU standards, and FDA guidelines**, ensuring they are free from **harmful chemicals, banned substances, and unnecessary allergens**.

This commitment safeguards both **brand integrity and consumer confidence**.

## 07 STRATEGIC MANUFACTURING LOCATION for Efficient Logistics

Our manufacturing facility is located in Puchong, Selangor, a strategic hub near **major air, sea, and land transportation networks**.

This advantageous location enables **efficient domestic and international distribution**, helping brands reduce **lead times and logistics costs**.

## SHEET MASK

---

You are partnering with **one of Malaysia's largest contract manufacturers for skincare sheet masks**, equipped with a **fully automated production system** capable of producing up to **30,000 facial sheet masks daily**.

### PRODUCTION CAPABILITIES

---

**30,000** pcs (per day)

---

- Manufactured using a **sustainable, fully automated sheet mask production line**.
- Designed to meet **high market demand through cost-efficient, high-volume manufacturing**.
- Offers a **wide selection of mask materials and customizable mask shapes** to suit diverse product concepts and brand requirements.

## SOAP BAR *(Soap-free Soap)*

---

Leveraging advanced formulation expertise and premium ingredients, TCT manufactures **soap-free cleansing bars** that deliver gentle, pH-balanced cleansing with a refined sensory experience—ideal for sensitive skin and modern daily skincare routines.

### PRODUCTION CAPABILITIES

---

**30,000** pcs (per day)

---

- Produced using **advanced cold-blend soap machine technology**, preserving and sealing active ingredients within the formula.
- **pH-balanced, durable bars** manufactured through a fully automated process.
- **Non-cooked formulation**, enabling shorter processing time while maintaining ingredient integrity.

## AEROSOL

As a pioneer of **aerosol skincare manufacturing in Malaysia**, TCT Nutraceuticals sets new standards in innovative product delivery. Our **Bag-On-Valve (BOV) technology** separates the formula from the propellant, ensuring pure, hygienic dispensing while preserving product integrity—ideal for sensitive skin and high-performance formulations.

### What Makes Aerosol Skincare Different?

- Delivers a fine, ultra-light mist that evenly distributes active ingredients across the skin.
- Enhances absorption efficiency and overall product performance.
- Provides a hygienic, mess-free application compared to traditional creams or lotions.
- Ensures consistent and even product coverage with every use.
- Offers greater convenience and improved user experience for modern consumers.

## PRODUCTION CAPABILITIES

**45,000** pcs (per day)

- **Aerosol spray technology is emerging as a future trend** in the beauty and skincare market.
- **Innovative spray formats available:** mousse type, spray mist, and ultra-fine fan mist.
- **Non-refillable packaging** ensures product hygiene, safety, and convenience.

## THERMOFORMING

### REINFORCING YOUR BRAND IMAGE:

Thermofforming packaging is ideal for personalised labels with the name of the product, brand & any additional message that you want to add. There's no doubt that distributing cosmetics in thermofomed jars will create a **STRONGER BRAND IMAGE TO CAPTURE GREATER MARKET PRESENCE**.

### Design The Best Single-Dose Packaging Options According To Your Needs:

## PRODUCTION CAPABILITIES

**30,000** pcs (per day)

- A wide range of **on-trend packaging options** to suit different brand concepts and market positioning.
- **Fully automated filling systems ensure** high-volume, efficient, and hygienic production.

# TCT NUTRIFOOD

---

As a top-notch OEM health supplement manufacturer in Malaysia, we continuously explore new resources, cutting-edge technologies, the latest knowledge, market trends, and innovative solutions to meet the evolving needs of our valued customers, ensuring wellness for all. From business consultation to branding and marketing, our mission is to become a one-stop solution center in the health and beauty industry.

Our mission is to enhance people's lives by establishing TCT Nutrifood as an essential player in the health and wellness industry. We are dedicated to becoming a trusted partner in the wellness field, offering a wide range of specialized formulations to improve society's overall health and well-being.

In addition to our direct-to-consumer offerings, TCT Nutrifood is a trusted partner for brands looking to enter or expand in the health and wellness market. Through customized formulations and private-label services, we empower businesses to confidently launch their own line of supplements. From concept to production, TCT Nutrifood's expert team guides clients through every step, ensuring the final product meets the highest standards of quality and market appeal.

## AVAILABLE FORMAT:

Powder

Chewable Tablet

Jelly

# PRODUCT RANGE

---

## 01 General Health Support

Formulations include a blend of vitamins, minerals, and natural extracts that boost the immune system, improve energy levels, and ensure the body functions at its best to provide essential nutrients that support everyday vitality.

## 04 Whitening and Beauty Support

Beauty supplements are rapidly gaining popularity, and TCT Nutrifood stands at the forefront with its advanced whitening and beauty formulations. Infused with ingredients like glutathione, collagen, and vitamin C, these products are designed to promote radiant, youthful-looking skin by improving the complexion from the inside out.

## 02 Detoxification

Whether through herbal infusions, fiber-rich blends, or antioxidant-rich powders, those detox formulations are meticulously crafted to help cleanse the system, promote digestive health, and rid the body of harmful toxins.

## 05 Men's and Women's Health

Recognizing the unique health needs of men and women, TCT Nutrifood has developed gender-specific supplements to support hormonal balance, vitality, and overall vitality.

## 03 Weight Management

With fiber-rich and potent formulas, they are safe and effective. They work synergistically to boost metabolism, control appetite, and enhance fat-burning processes, helping users reach their fitness goals and maintain a healthy weight.

## 06 Sleep Management

The sleep management supplements are designed to help individuals struggling with insomnia or irregular sleep patterns. Formulated with calming herbs formulation, these supplements help regulate the sleep cycle, reduce anxiety, and promote deep, restorative sleep.
